

Rahul Menon

Backend Engineer | Java, Spring Boot, AWS
rahul.menon@example.com · +91 99610 54321 · Bengaluru

SUMMARY

Backend engineer with four years building payment and order services in Java and Spring Boot. Led the move of a monolith to AWS services and owns on-call for two production systems.

EXPERIENCE

Software Engineer II

Mar 2023 - Present

Northwind Payments

Bengaluru

- Split the order monolith into four Spring Boot services on AWS ECS, cutting deploy time from 40 to 8 minutes.
- Added idempotency keys to the refund API, ending duplicate refunds that cost about Rs. 2 lakh a month.
- Mentored two new engineers through their first production releases.

Software Engineer

Jul 2021 - Feb 2023

Lakeside Software

Kochi

- Built REST APIs in Java for a logistics client handling 50,000 shipments a day.
- Wrote integration tests that raised coverage from 45% to 80% on the billing module.

SKILLS

Java · Spring Boot · AWS (ECS, SQS, RDS) · PostgreSQL · Kafka · Docker · JUnit · Git

EDUCATION

B.Tech, Information Technology

2017 - 2021

College of Engineering Trivandrum · CGPA 7.9

Thiruvananthapuram

PROJECTS

Expense Splitter

Spring Boot · React

- A small Spring Boot and React app to split shared trip costs.
- Open source with 40 stars.
